

MANIFESTO

Strive for excellence: We are determined to eliminate any suspicions in the accuracy of lab results

Act respectfully & with Integrity: We are determined to under the patient and provide personalized service to their specific needs Take responsibility:

We are resolved to eliminate preanalytical lab errors that can be eliminated before blood draw.

ABOUT LAB2DOCTORS

Lab2Doctors is here to serve the government as a premier clinical laboratory consulting company that ensures quality in the preanalytical phase of testing, which includes clinical diagnostic laboratories (Clinicians). As a small minority-owned business, we have had the privilege of gaining extensive years of working experience at all the different types of clinical diagnostic laboratories and prior to owning a clinical laboratory, extensive training in all the phases of testing in a clinical laboratory, from sample collection and prep, testing and leading up to lab results interpretation, consult and recommendation.

We self-perform and team with partners to provide the most cost-effective solution to meet the needs of the government, industrial, education, healthcare, and pharmaceutical communities. Let us be your solutions source.

PAST PERFORMANCE

- Delivered diagnostic education and CE programs for clinicians, nurses, and laboratory staff
- Provided laboratory consulting and interpretation support for clinical practices
- Led QA/QC programs and staff training in accredited clinical laboratories
- Designed and deployed scholarship selection systems and community-based educational tools
- Supported operational readiness for new diagnostic services and testing platforms

CORE COMPETENCIES

Education & Continuing Professional Development

- Laboratory-focused CE and professional education
- Virtual, hybrid, and on-site training delivery
- Case-based diagnostic education for clinicians
- Community and patient-centered health education

Professional Training Programs

- Competency-based laboratory skills training
- Pre-analytical, analytical, and post-analytical workflow training
- QA/QC and quality systems training
- Diagnostic interpretation training for clinicians and APPs

Mentoring & Workforce Development

- Mentorship for early-career laboratory professionals
- STEM pathway support for students and underrepresented groups
- Career development coaching for healthcare staff
- Structured mentoring for scholarship and academic readiness programs

Laboratory Consulting Services

- Workflow assessment and optimization
- Quality Management System (QMS) development
- SOP and policy development
- CLIA/CAP compliance guidance
- Implementation support for new diagnostic platforms

DIFFERENTIATORS

- Led by a certified Clinical Laboratory Director (NRCC, ASCP)
- Expertise bridging clinical practice and laboratory diagnostics
- Culturally relevant, human-centered education adaptable to diverse audiences
- Proven experience designing scalable systems and educational frameworks
- Flexible delivery: virtual, hybrid, on-site, and asynchronous
- Strong commitment to equity and STEM empowerment for women and underserved communities
